

HOW TO MAKE A TRANSACTION UNEDITABLE WHEN PRINTED

In System, there is a feature where a User is not allowed to Edit a Printed Transaction. This feature both applies for Purchases and Sales Module.

This Particular Security System Role is **Not Allowed to Modify Printed Transactions** both Sales and Purchases Module. This can be set under Maintenance > in the Security System Role where this option will be applied.

| Operation | Allow |
|---|--------------------------|
| Customization Center | <input type="checkbox"/> |
| Customize Layout | <input type="checkbox"/> |
| Database Backup | <input type="checkbox"/> |
| Database Restore | <input type="checkbox"/> |
| Import Wizard (Import From...) | <input type="checkbox"/> |
| IO (Import/Export) | <input type="checkbox"/> |
| Migration Assistant | <input type="checkbox"/> |
| Modify Printed Transactions (Purchase Module) | <input type="checkbox"/> |
| Modify Printed Transactions (Sales Module) | <input type="checkbox"/> |
| Module Manager | <input type="checkbox"/> |

For example, this particular Purchase Invoice was already *Printed*. Please see *KB – How to View Print Count*.
