Refer to this [link](#) for more information.

2. What is OCR (Optical Character Recognition)?

Optical Character Recognition as defined in [Wikipedia.org](https://en.wikipedia.org), is the electronic or mechanical conversion of images of typed, handwritten or printed text into machine-encoded text, whether from a scanned document, a photo of a document, or a scene-photo. It is a common method of digitizing printed texts so that they can be electronically edited, searched, stored more compactly, displayed on-line, and used in machine processes.

QNE Cloud Accounting, equipped with this innovation provides its end-users a **Quick N' Easy** way to convert scanned documents or images such as receipts, billings and invoices into system transactions, for greater speed of data recording and increase of productivity!

3. Is QNE Cloud Accounting accredited by BIR?

The good thing about QNE Software is, **QNE is BIR-Ready**! QNE is developed as an Accounting Software complete with the features that adapt to the rules and regulations of BIR with regards to Computerized Accounting System accreditation, and is continuously enhancing to comply with the changes and updates mandated by BIR. In fact, several businesses across the Philippines using **QNE Software** were already **BIR CAS-Approved**.

QNE Consultants provide complete assistance during the BIR CAS accreditation process, which includes documentation, meetings and demos.

4. To which type of platform or browser I can access QNE Cloud Accounting?

With the power of internet connection, QNE Cloud Accounting can be accessed anytime and anywhere! It has multi-platform capability enabling users to login in their desktop, tablet or mobile devices and is optimized to any internet web browsers.

5. How secure is my data in QNE Cloud Accounting?

Powered with Microsoft Azure Cloud being known for it's secure infrastructure datacenter, composed of segregated networks, well-maintained hardware and firmware, and industry-leading operational security processes, QNE Cloud Accounting have more resources available to deliver it's business value.
